Organic

Sustainably Sourced **Grubs are raised on clean, traceable food scraps that**

would otherwise be wasted in landfills. Through natural nutrient recycling, they're a scratchable, peckable way to support the greater good. A tantalizing treat for feathered and furry friends or scaly sidekicks, Grubs are great for a protein boost—or just for *busting* boredom.

FEED INFORMATION

Grubs are nutrient-rich black soldier fly larvae

Packs a 40% protein punch—talk about a superfood.

1 lb Grubs = 18 lbs food waste saved from landfills

Supports consistent laying of healthy eggs and strong, shiny feathers

Beloved by all species of best friends (especially dogs)

Use as treats for training your flock

FEEDING INFO

Crumble Grubs into smaller pieces when feeding to birds less than 8 weeks old.

Feed Grubs by hand or scatter on the ground to encourage natural foraging behavior.

Just like dessert, Grubs should be consumed in moderation.

Treats should not exceed 10% of your flock's diet.
